# Gypsum Regular Ceiling Board

---

TECHNICAL DATA SHEET

**Hoff-GM**  
**RG boards**

**Made in  
Thailand**

**Hoff-GM Regular Gypsum Boards** are factory made ceiling & wall boards for light weight ceiling & drywall constructions, and are specially designed for ceiling applications with sag resistant ability. Hoff-GM RG Boards consist of aerated gypsum core enclosed in a heavy natural-ivory colour finish paper liners.

### Applications:

Hoff-GM regular gypsum boards are designed essentially for standard light weight drywall and ceiling constructions. Regular board is not tested for fire, or acoustic applications and cannot be used where fire or acoustic performance is required.

### Hoff-GM regular gypsum board can be used for:-

- Furring & Wall lining.
- Suspended Ceiling using metal framing.
- Drywall partitions using metal framing.

### Properties

- Fast, Easy and dry applications.
- Good Sound insulation performance.
- Light weight Construction.
- Environmental Friendly.
- Limitless in design options.

### Technical Data

#### Board Dimensions:

Thickness: 9.5 mm / 12 mm / 12.5 mm / 15 mm  
Width: 1200 mm  
Length: 2400mm / 2700mm / 3000mm\*

	Spec	Result
Strength MD (N):	≥521	547
Strength CD (N):	≥200	230
Nail pull (N):	≥330	352

#### Edge Details:

Square Edge (SE) 

Taper Edge (TE) 

**Asbestos content:** None

#### Appearance:

Ivory/ Grey Paper Liner

#### Board Type:

EN520 - Type A

**Fire Safety:** Surface burning in accordance with ASTM E84 gives flame spread < 25, no smoke.

**Health and Safety:** There is no significant health hazard when using and fixing Hoff-GM Regular gypsum laster board. It is free from Asbestos & Strontium Sulphide.

**Physical/Chemical properties & usage**

The gypsum core offers no support for combustion and temperature is kept under control until entirely calcinated. Regular gypsum plaster board is associated with a volume loss resulting in cracks that will limit the fire-resistance of drywall systems. For prolonged measurable fire resistance of tested drywall systems, Hoff-GM Fire Gypsum Boards have to be used as per relevant technical data sheets.
